

dare to be different...

Vesoi

pensare, progettare, agire, intraprendere, osare, insistere, correggere, ripartire, fare!

oggi in molti concordano che innovazione e tradizione siano due concetti inscindibili, è sufficiente guardarsi intorno per trovarne conferma: dalla moda all'architettura, al design e fino al cibo, viviamo in simbiosi tra passato e futuro. sempre più di frequente si attinge a modelli di ieri per studiarne di nuovi. oggi molti sono gli oggetti della memoria che spesso rappresentano l'archetipo di un prodotto nato per esigenze di altri tempi, a noi piace riscoprirli e renderli attuali.

umana trasgressione

l'uomo è sempre più mezzo di produzione e di innovazione una macchina in cui è racchiusa l'anima artigiana dell'azienda che in rapporto armonioso con la tradizione ha consentito l'approccio migliore alle nuove tecnologie, oggi più accessibili, così da facilitare i processi di produzione più avanzati che inevitabilmente portano ad una globalizzazione uniformante utilizzando nuovi materiali ed innovando nel rispetto del pianeta.

umana trasgressione

giociamo con la luce anche guardando l'arte in un momento in cui risulta difficile distinguere oggetti artistici o ordinari, opera o contesto, alcune nostre luci o oggetti hanno alla base una istintiva fascinazione (la mia), al di là di qualsiasi teoria quasi una forma di comunicazione visiva applicata alla mia passione per mestiere.

umana trasgressione

mario.

welcome to our 2017 catalogue with lots of new designs, colours and materials. it's great with something new. especially when it comes with experience. this year we celebrate our 35 anniversary and we have learned our lessons. our concept is all set and our experience is carried through in everything we do.

we constantly challenge ourselves to develop designs that reflect the urban lifestyle and contemporary mood.

our commitment to creating good, honest and useful designs is still the same, our modular designs can be customized to fit your needs and tastes.

our dream to become the smallest independent italian decorative lighting factory in the world.

since the beginning 1981 in italy, lighting not only looks good, but is functional and good value for money too. we continued to have our own production in italy while working closely with select international suppliers who share our commitment to high quality, we believe in affordable luxury.

we are proud to offering you a highly professional service. you can find also 3d drawings on our website to visualize our luminaire in the comfort of your office.

turn the pages to find new inspiration and know that our 35 years of experience have been put to good use, so you can enjoy our mindmade design.

mario.

vesoi nasce nel 1981 continuando una tradizione vetraria di famiglia. subito voglia di fare e tradizione artigiana diventano motore e valori al tempo stesso: un'azienda indipendente in un piccolo mondo il nostro, in cui il lavoro è organizzato come un tempo tenendo viva la cultura del ben fatto. ogni apparecchio riflette una propria ispirazione di partenza, spesso espressa dal suo stesso nome ed è il risultato della somma di esperienze ormai per noi un elemento fondante.

vesoi was founded in 1981 continuing the family glass tradition and immediately the desire to do it and handcraft tradition become a motor and values at the same time: an independent company in a small world, where work is organized as one time keeping alive the culture of the well done. each device reflects its own initial inspiration, often expressed by his own name and this is the result of the sum of experiences that are now a fundamental element for us.

è grazie alle persone che incontriamo sul nostro cammino e con cui ci confrontiamo, ci arricchiamo e facciamo esperienze migliori. ed è per questo che voglio per prima cosa, ringraziare i miei collaboratori che in questi anni hanno contribuito alla nostra crescita e per avermi sostenuto nel trasformare le mie scelte o decisioni in azioni. il mio percorso senza di loro sarebbe stato probabilmente diverso e oggi sarei qui a raccontare un'altra storia.

fin da bambino mi incantava l'accendersi di una lampada (ina) rincorrevo con lo sguardo la sua ombra sui muri di casa che disegnava insolite forme.

oggi cerco di aprire nuove finestre di dialogo con i giovani, un vero patrimonio da cui attingere e su cui investire. ho creato un filo diretto tra impresa e scuola (università) perché i due mondi si conoscano, interagiscano e migliorino insieme.

mi sono seduto sempre più spesso tra i banchi, per imparare ai continui corsi di aggiornamento e per insegnare, formare e trasmettere le nostre conoscenze.

pochi gli elementi che sono un po' il mio credo:

sogno, curiosità, etica, voglia di fare, competenza e fortuna.

sogno, la parte onirica della mia vita,

curiosità, la mia continua ricerca,

etica, il rispetto di tutto ciò che mi circonda,

voglia di fare, il mio lavoro mi appassiona,

competenza, studiare, studiare e studiare,

fortuna, da napoletano non posso non crederci!

mario.

it is thanks to the people we meet on our way and we compare that enrich us and we do the best experiences. first of all I want thanks my co-workers who in recent years they have contributed to our growth over time and for supporting me in turning my choices or decisions in shares. my path without them would probably have been different and now i would be here to tell another story.

as a child enchanted me the kindling of a lamp I was running after it with eyes and his shadow on the house walls drawing unusual shapes.

now I try to open new windows for dialogue with young people, I created a direct link between the company and the school (university) because the two worlds meet, interact and grow together. I sat more and more frequently in the classroom to learn in the updating courses to teach and transmit our knowledge.

few things are also my creed:

dream, curiosity, ethics, desire to do, skill and luck.

dream, the dreamlike part of my life,

curiosity, my continued research,

ethics, the respect of all that surrounds me,

desire to do, I'm passionate of my work,

competence, study, study and study,

fortune, as neapolitans I can't do not believe it!

mario.

la rifrazione

è possibile ottenere un'immagine riflessa non solo con gli specchi ma anche ad esempio con una superficie d'acqua o qualche altro materiale come il vetro. Il passaggio di raggi di luce si propaga nell'aria ed a contatto con la superficie non si trasmettono in linea retta ma subiscono variazioni di angolo.

what is the refraction

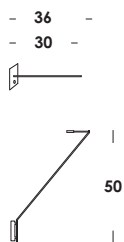

you can get a reflected image not only with mirrors but also, for example, with a surface of water or some other material such as glass. the passage of light rays propagates in the air in contact with the surface are not transmitted in a straight line but undergoes angular variations.

questo apparecchio è fatto di ombre, di luce e di anamorfosi (rende il soggetto originale riconoscibile solo guardando l'immagine da una posizione precisa). basato su uno studio puntuale dell'ottica e della sua geometria, con questo sistema semplice nella forma ma complesso al tempo stesso regala figure fantastiche creando dei chiaroscuri che rimandano ad immagini che evocano nello spettatore un'atmosfera di oblio...piena magia.

apparecchio da parete completo di struttura di appendimento per elemento in vetro o in acciaio. finitura galvanica brunito scuro-matt.

this luminaire are made of shadows, light and anamorphosis (makes the original subject recognizable only by looking at the image from a precise position). based on a punctual study of optics and geometry, with this simple but complex at the same time it gives fantastic figures, creating lightening shades that point to images that evoke in the spectator an atmosphere of oblivion... full of magic. wall luminaire provided with hanging arm for glass or iron pendant element. finished galvanized dark old brass-matt.

la filastrocca nell'arte, nello spettacolo... nella luce.

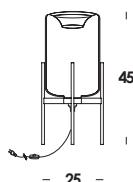

citata in espressione artistiche e canzoni (non solo infantili) a teatro e nella letteratura, dalla canzone dello zecchino d'oro del '65, a quella di Nilla Pizzi del 2003, alla versione *punk-rock* dei *Punkreas*, e poi ancora Vasco Rossi, Elio e le Storie Tese fino alla penna di Umberto Eco.

ambarabà-cicì-cocò - 2017

apparecchio da tavolo, parete e sospensione in acciaio con finiture galvanizzate in ottone brunito spazzolato-matt, ramato brunito spazzolato-matt. anche in ottone naturale lucido. finitura verniciata *totalwhite* e *totalblack*. versione sospensione con speciale cavo elettrico in silicone rivestito in tessuto e regolabile in altezza. diffusore in vetro soffiato naturale, decorato fumè o con parziale decoro lucido in bianco, grigio, arancio o bronzo-matt.

tributo all'artista amedeo modigliani (1884-1920)
nato a livorno e studiato e vissuto a parigi esponente della
omonima scuola degli espressionisti agli inizi del secolo scorso
era solito raffigurare con tele e scultura volti di donne che ha
molto amato nella sua breve vita al limite.

*tribute to the italian artist amedeo modigliani (1884-1920)
born in livorno, studied and lived in paris became exponent of
the homonymous school of expressionists at the beginning of the
last century it was usually picture with canvases and sculpture
faces of women that he loved much in his short and to limit life.*

apparecchio da tavolo con struttura in acciaio finitura galvanica brunito scuro antico o ottone verniciato e diffusore in vetro soffiato bianco-latte *triplex* o nero. *dimmer on/off* sulla struttura per la versione con diffusore bianco-latte, o sul cavo per la versione con diffusore nero. lampada inclusa.

table luminaire with iron structure finished in burnished dark-antique galvanized or painted brass and diffuser in blown glass opal or black. on/off switch on the structure for version with white diffuser or on cable for version with black diffuser. lamp included.

archiviato il principio della qualità come fondamentale, ci muoviamo nel segno della coerenza con una nuova visione ed attenzione al progetto nella convinzione che la lampada a bulbo possa ancora oggi avere un ruolo importante. coprifilo, cavo, portalampade, lampada ed accessori... la nostra carta d'identità!
 la nostra storia di produttore inizia nel 1996 proprio intorno a questi semplici elementi, tanta curiosità e voglia di fare, ci misuriamo produttivamente con il mondo dell'arredo luce: scriviamo il nostro futuro consapevoli che è tempo di aggiungere valore emozionale ai nostri apparecchi con uno sguardo al passato.
 la sorgente al centro del progetto, la lampada (ina) dalla forma classica già parte della vita di tutti noi, oggi grazie ad un nuovo percorso ed alla tecnologia (filamento) led, ha sostituito di fatto la vecchia c a r a incandescenza, conclamata icona di design che a cambiato la percezione della luce artificiale lasciandone però intatto fascino e valore evocativo.

archived the principle of quality as the fundamental, we move in the sign of the project coherence and a fresh vision of design and source canopy, cable, socket, bulb and accessories... our i.d. card! our history as lighting producer start in 1996 around these simple elements, much curiosity and enthusiasm, irony, measuring ourselves productively with lighting world: we write our future looking to the past.
the source central in the project, the bulb with his classical form, part of life of all of us, now in a new way thanks to technology (filament) led that replacing the old incandescent bulb (today's true design icon) changes the world of artificial light; intact charm and evocative value respecting the planet.

marchi / marks

in conformità con quanto previsto dalla direttiva CEE del 01.01.1996 vesoi applica il marchio indicato nei dati di targa dei suoi prodotti certificando che sono costruiti in conformità alle caratteristiche dei prodotti. Le direttive applicate per la verifica dei prodotti sono la LVD 2014/35/UE, EMC 2014/30/UE, RoHS 2011/65/UE ed Ecodesign 2009/125/CE.

in conformity with the provisions of the 01-01-1996 eec directive, vesoi places the mark on all its products depending on the characteristics of the products. directives applied for the verification of the products are the LVD 2014/35/UE, EMC 2014/30/UE, RoHS 2011/65/UE and Ecodesign 2009/125/CE.

il marchio IMQ garantisce per l'Italia il rispetto delle norme EN 60958-1, ovvero il prodotto è stato certificato da appositi laboratori che ne riconoscono il rispetto e l'applicazione.

IMQ certification mark guarantees that a product respects the EN 60958-1 regulations, and that this has been verified by authorised laboratories.

apparecchio conforme alla norma VDE 0710 parte 14, può essere installato all'interno di mobili normalmente o difficilmente infiammabili.

luminaire conforming to part 14 of the vde0710 regulations, i.e. that can be mounted inside furniture with standard or reduced inflammability characteristics.

apparecchio alimentato da rete a 230v ac con connessione a circuito di protezione per gli apparecchi di classe I.

luminaire fed by 230v ac with connection a protection circuit for class I luminaire.

532

apparecchio di classe II dove l'isolamento è garantito non solo dalla presenza di quello fondamentale ma anche da misure di sicurezza supplementari come il "doppio isolamento"; queste misure non comportano messa a terra e non dipendono dalle condizioni di installazione.

class II fitment where insulation is guaranteed not only by the presence of basic insulating measures but also by extra safety precautions such as "double insulation", which do not require earth connection or special installation methods.

apparecchio classe III dove l'isolamento si basa unicamente sull'alimentazione in bassissima tensione; non deve essere provvisto di messa a terra di protezione.

class III luminaire where insulation is based solely on low voltage current and does not require a protective earth connection.

apparecchio protetto da corpi solidi superiori a 1,0mm e protetto contro gli spruzzi d'acqua, ideale per installazione in bagno.

fitment protected by solid covering more than 1 millimetre thick and protected against water splashes, therefore suitable for bathroom use.

RoHS 2

i prodotti vesoi rispettano la direttiva 2011/65/CE "restriction of hazardous substances directive" che impone restrizioni sull'uso delle seguenti sostanze: piombo, mercurio, cadmio, cromo esavalente, bifenili polibromurati (pbb) e etere di difenile polibromurato (pbde).

all vesoi products conform with the 2011/65/CE restriction of hazardous substances directive regulating the use of lead, mercury, cadmium, hexavalent chrome, polybrominated biphenyl (pbb) and polybrominated diphenyl ethers (pbde).

apparecchi con sorgenti luminose ed apparati elettronici conformi alle norme generali sul risparmio energetico.

luminaire with electric light bulbs, or other electronic gear in conformity with general regulations covering energy saving.
